Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 9 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More specifically, claim 9 is indefinite because the language of “combining” does not provide a clear positive recitation of method steps. Also, it is not clear how this method step of “combining” provides a method of reinforcing synthetic fiber. Therefore, the metes and bounds for which patent protection is being sought are not clear.

Claim 10 is vague and indefinite because the composite material is not clearly defined. The language of “one or more other materials” does not provide a positive recitation of the structure or properties of the composite material. Therefore, the metes and bounds for which patent protection is being sought are not clear.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Flynn, 3,901,833.

Art Unit: 1774

Flynn teaches a composition comprising an epoxy resin reaction product of epichlorohydrin and a component selected from bisphenol A and bisphenol F, wherein the coating composition further comprises an epoxy resin hardener, per claims 1-4 and 7-8. See column 5, lines 21-25 and lines 47-68. In addition, Flynn teaches a method of coating a glass substrate wherein the substrate can be glass fiber, per claims 5 and 6, said method comprising providing a glass substrate and contacting the glass substrate with the coating composition. See column 7, lines 45-55. Therefore, the teachings of Flynn anticipate the invention as claimed in present claims 1-8.

No claims are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
